

My Schedule App – Inspired by M31s Clock UI

1. Home – Set Schedules

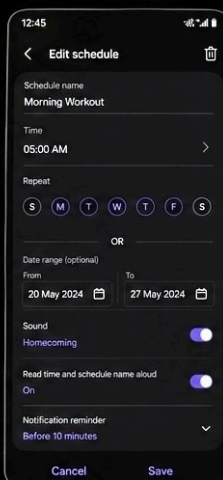

2. Add Schedule

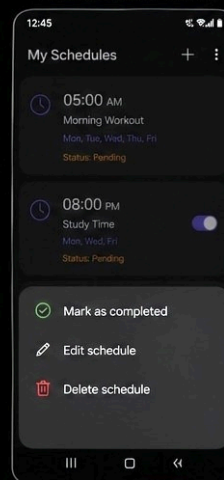

3. Sound selection

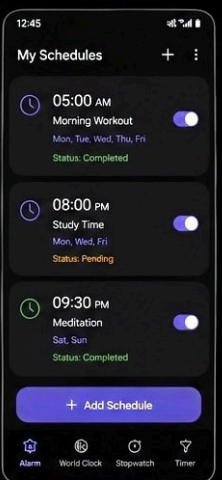

4. Edit Schedule

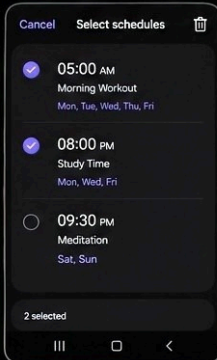

5. Options (Three dots menu)

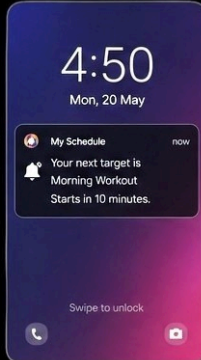

6. Completed state

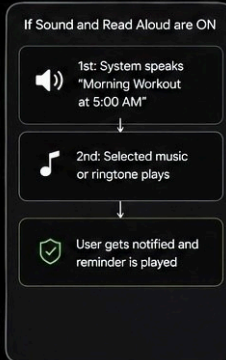

7. Multi-select delete

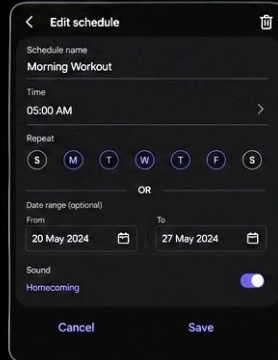

8. Notification (System)

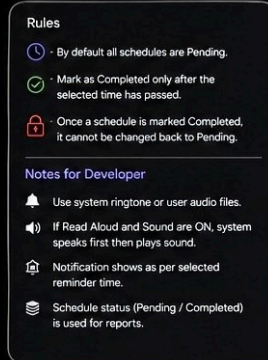

9. Audio + TTS Flow (Behavior)

10. Edit schedule (same fields pre-filled)

11. Rules & Notes

GOAL MODULE

Set Goals. Stay Focused. Achieve More.

GOAL CAPACITY BASED ON STREAK LEVEL

Beginner
0 - 49 Streaks
Max 10 Goals

Intermediate
50 - 99 Streaks
Max 20 Goals

Advanced
100+ Streaks
Max 30 Goals

1 CREATE GOAL

User clicks on "+" (Add Goal) button to create a new goal.

2 PRIORITY

Select priority from 1st to 10th based on your capacity.

3 NOTIFICATION TIME OPTIONS

4 HOME SCREEN - SAVED GOALS

All saved goals appear in card format.

5 THREE DOT MENU (:) OPTIONS

Click on three dots to see available options.

6 MARK AS COMPLETED

Once completed, status cannot be changed again.

7 EDIT GOAL

User can edit goal details before it is completed.

8 DELETE GOAL

User can delete any goal with confirmation.

9 COMPLETE AFTER DUE DATE

User can complete goal even after due date.

10 NOTIFICATION EXAMPLE

User will get reminder as per selected time.

NOTIFICATION LOGIC

- All notifications trigger at 10:00 AM.
- Based on due date and selected time.
- If goal is for the same day → No notification.
- If Daily is selected → Notification will come every day at 10:00 AM till goal is completed or due date ends.

REPORTS IMPACT

When goal is marked as completed, reports will be updated automatically.

- Completion Rate
- On-time vs Late Completion
- Total Goals Completed

IMPORTANT RULES

- Once goal is completed, status cannot be changed.
- Goal can be completed even after due date.
- Cannot edit completed goals.
- Goal limit depends on streak level.
- Delete option is available (with confirmation).

SET GOAL MODULE – REMINDER LOGIC & NOTIFICATION TRIGGER SYSTEM

🕒 Standard Notification Time (Set in Backend): **10:00 AM**

EXAMPLE SCENARIO (As Per Your Case)

Current Date & Time: 28/04/2026 11:30 AM | Goal Date Range: 28/04/2026 – 30/04/2026 | Selected Option: Before 1 Day

Goal Dates	Selected Option	Calculated Reminder Date (Time = 10:00 AM)	Is Time in Future?	Will Notification Trigger?	Notification In Status Bar
28/04/2026	Before 1 Day	27/04/2026 10:00 AM	No (Past)	✗	No (Skipped)
29/04/2026	Before 1 Day	28/04/2026 10:00 AM	No (Past)	✗	No (Skipped)
30/04/2026	Before 1 Day	29/04/2026 10:00 AM	Yes (Future)	✓	Yes (Only One Notification) on 29/04/2026 at 10:00 AM

Result:
User will get only one notification on 29/04/2026 at 10:00 AM. (Because only this reminder time is in future)

IMPORTANT:
Except Daily option, user will get only one notification (for the nearest future reminder time within the range).

FULL LOGIC FLOW (Step by Step)

- User sets goal with start date, end date and selects reminder option (Before 1 Day / 2 Days / 3 Days / 4 Days / 5 Days / Daily).
- System creates all goal dates between start date and end date.
- For each goal date, system calculates reminder date based on selected option.
- Standard time 10:00 AM is added to reminder date.
- System compares reminder datetime with current datetime.
- If reminder time is in future → mark as eligible. If reminder time is in past → skip.
- For options (Before 1-5 Days): Schedule only the nearest future reminder time. (Only one notification).
- For Daily option: Schedule notification every day at 10:00 AM till end date (only future times).
- App shows notification automatically at scheduled time.

HOW LOGIC WORKS WHEN CURRENT TIME > NOTIFICATION TIME

Example:
Reminder Time: 28/04/2026 10:00 AM
Current Time: 28/04/2026 11:30 AM

Logic Check:
Is 28/04/2026 10:00 AM > 28/04/2026 11:30 AM ?
No (It is less than current time)

Action:
Skip this notification
(It will not trigger)

Only future reminder times will be scheduled and triggered.

OTHER OPTION SCENARIO EXAMPLES

Selected Option	Calculated Reminder Date (For 28-30 Apr 2026)	Notification Trigger Time
Before 2 Days	29/04/2026 10:00 AM	29/04/2026 10:00 AM
Before 3 Days	28/04/2026 10:00 AM	(Skipped)
Before 4 Days	27/04/2026 10:00 AM	(Skipped)
Before 5 Days	26/04/2026 10:00 AM	(Skipped)
Daily	28/04/2026 10:00 AM 29/04/2026 10:00 AM 30/04/2026 10:00 AM	28/04/2026 10:00 AM 29/04/2026 10:00 AM 30/04/2026 10:00 AM

Note: In Daily option, user will get notification every day at 10:00 AM till end date (only future dates).

NOTIFICATION PREVIEW (Single Notification Example)

Goal Reminder 10:00 AM
Don't forget your goal!
"Drink More Water"

DAILY OPTION PREVIEW (Example)

28 Apr 2026 10:00 AM ✓ Scheduled	29 Apr 2026 10:00 AM ✓ Scheduled	30 Apr 2026 10:00 AM ✓ Scheduled
---	---	---

(Only future times will be scheduled)

LEGEND

- ✓ Schedule (Notification will trigger)
- ✗ Skip (Notification will not trigger)
- 🕒 Depends on current time
- ⌚ Past (Already passed)
